Healthy Foods

Hamburger and pizza are very popular foods with most teens. In recent survey, 80% of the teens listed these as their favorite foods. However, many mothers and fathers do not like their children eating hamburgers and pizza. Why? My parents think these foods are “junk food” - foods that are not good for your body.

But are they really junk food? You can have many healthy toppings on a pizza, likes tomatoes, green pepper, or mushroom. Hamburger can be healthy, too with cheese, onions, and lettuce on them. Of course, if you eat too much pizza, or have too many hamburgers, it’s not good for your health.
